TO CONSUMERS OF
PICKLES.
BELIEVING that the Public have become tired of purchasing Pickles in Packages, holding, in many cases, fifty per cent. less than represented, we have commenced putting up, in addition to our present second size jar, an article which we are bottling "WM. UNDERWOOD & CO'S EXTRA PICKLES," and are filling into full sized jars, which are legibly stamped in the glass with their exact contents in ounces—this enabling the consumer to verify their truth.
These Extra Pickles are put up with every regard to style, purity and flavor, and will be sold at fully one cent less than prices.
We have made no change in our manner of Grading Pickles, never having resorted to any deleterious means to attain this end. The Cider Vinegar which we use is made from sound fruit, and is entirely free from Vitriol or any other mineral acid, which is not the case with that used in most kinds of English Pickles found in this country.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.
TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case. Sold by DENNA BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 157 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 4 o'clock till 8 in the evening, (Sundays excepted.)
TRIESEMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c.; all physical impediments vanish like magic before its influence; thus rendering its use invaluable to those entering the matrimonial state.
TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.
TRIESEMAR No 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.
TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses, as administered* by Valpeau, Lallemand, Roux, Ricord, &c. &c. Price $3 each, or four cases in one for $9, which saves $3; and in 27 cases, whereby there is a saving of $9.
Special arrangements have been made with the various Expresses, the nine dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three dollar cases sent as usual, but not free of carriage.

THE
NEW YORK WEEKLY TIMES,
A LITERARY AND NEWS JOURNAL, FOR THE FAMILY AND FIRESIDE.
The Cheapest Newspaper in the United States.
Upon the termination of the Presidential contest, now close at hand, the proprietors of the New York WEEKLY TIMES intend to introduce various and extensive changes in its character, which will render it still more attractive to the great mass of the people of the United States. Its columns will then be less exclusively occupied by political news and discussions, and will be much more largely devoted to LITERATURE, GENERAL NEWS, and interesting MISCELLANEOUS READING. It will be made emphatically and especially a
NEWSPAPER FOR THE FAMILY AND THE FIRESIDE,
Containing Literary Tales, Original and Selected, Biographical Notices, Sketches of Character, Letters from Abroad, Anecdotes, and generally whatever will be most entertaining and most instructive to the great mass of Newspaper Readers.
Among the conspicuous attractions of the Weekly Times will be
AN ORIGINAL NOVEL,
By a Popular AMERICAN AUTHOR, written expressly for its columns, and abounding in interest and merit. This will be published in successive numbers, commencing about the 16th of November, and will probably be completed in six months.
The *Weekly Times* will also contain a series of
LETTERS FROM EUROPE AND THE EAST,
By one of the best and most Popular writers in the United States, embracing Notes of Incident, Adventure and Observation in Europe, Egypt, Arabia and the Holy Land, and forming one of the most interesting series of Foreign Sketches ever published in this country.
Besides these continuous articles, prepared expressly for the New Series of the *Weekly Times*, will contain, every week, a great amount of
Original Correspondence, Domestic and Foreign, Miscellaneous Literary Anecdotes and Sketches, Notes of Scientific Discovery, Biographical and Critical Notices, Reviews of New and Valuable Books, Choice Poetry, Original and Selected, &c. &c.
In short, it is the design of its proprietors to spare neither expense nor labor in making it the most interesting and desirable Miscellaneous FAMILY NEWSPAPER in the United States.
In addition to its Literary and Miscellaneous character, the *Weekly Times* will give, in a clear and condensed form,
All the News of the Day,
From all quarters of the world, and in all departments of activity,—embracing
AGRICULTURE, COMMERCIAL AND FINANCIAL INTELLIGENCE.
Prepared expressly for its columns, and for the use of those in all parts of the country who wish to be kept informed upon all these topics,
THE DOINGS OF CONGRESS,
With a synopsis of all important documents, valuable speeches, and the proceedings of the several State Legislatures
FOREIGN NEWS,
As given in the Letters of Special Correspondents, and in Extracts from the Newspaper Press of England and the Continent;—and
THE MISCELLANEOUS NEWS
Of Accidents, Crimes, Disasters, Personal Movements, &c., both at home and abroad.
The *Weekly Times* will also contain EDITORIAL ARTICLES, discussing all the leading events of the day, in such a manner as shall promise to be most widely useful and instructive. In its political department the *Times* will be
WHOLLY INDEPENDENT OF ALL POLITICAL PARTIES,
Speaking freely and boldly its own Opinions—condemning Public men and Public bodies for whatever may be wrong, and upholding and sustaining them in whatever may tend to the advancement of the public good. It will advocate equal and exact justice to all men, the preservation of the Union upon the principles of the Constitution, and the improvement of the condition of all classes by Education, Morality and Religion. It will wage no war upon any section nor countenance any infringement of the constitutional rights of any portion of our common country. But it will also resist all attempts to subordinate to the general good to sectional ambition or to undermine those great principles of human Liberty which form the basis and foundation of our Republican Institutions. It will be moderate but firm in its tone,—seeking to convince rather than intimidate, resolute in its tendency, and devoted zealously and steadily to the elevation and advancement of the people.
The *Weekly Times* will be printed upon handsome paper, in clear type and in elegant style—each number containing eight pages or forty-eight columns presenting every week a larger amount of choice Reading and News than can be obtained elsewhere at the same rate. It is designed to make it a

Thrice-Weekly
Kennebec Journal for 1857.
DURING the approaching session of the Legislature, the undersigned will continue the publication of the *Thrice-weekly Journal*, being the XIIIth Volume of the same.
As is well known, the chief purpose of this paper is to afford the people of Maine a faithful account of the deliberations and actions of the Legislature. With the reports of the Legislative doings, we intend also to publish the proceedings of Congress, as they are given in the best reports from Washington.
As the renewal of all the Bank Charters in this State will come before the Legislature this Winter, the debates and proceedings will be of peculiar interest to all who are interested in bank property.
The numerous lines of railroad which now traverse the State in all directions, will enable a very large proportion of our subscribers to receive their papers a few hours after their publication. This fact renders a subscription to the Thrice-Weekly more desirable and satisfactory than in former years.
The Thrice-Weekly Journal will be published on *Monday, Wednesday* and *Friday* mornings.—The price will be
Single Copy—One Dollar for the Session,
As usual, payable in advance. Any person forwarding us $8 shall be entitled to the ninth copy for his trouble. To any one who will send us $16 we will send two copies extra for his trouble.—Whoever shall send us $24 shall be entitled to three copies extra, and in like ratio for a larger amount.
☞ It is desirable that the names of subscribers accompanied with the money, may be forwarded a-p or before the commencement of the session.—*Money remitted by mail at our risk.*

By recent advices from Kansas, the pro slavery men seem still determined to make a strong effort to secure the State They have abandoned border ruffian rowdyism (at least until another election)—because they do not seem to work favorably upon public sentiment at the North and for the same reason, the more numerous precautions of free State men have been suspended or abandoned altogether But the game is not altogether abandoned The tactics are changed, but the object is still the same Is hoped that the State may yet be secured for slavery by a skillful and judicious use of the power already obtained in the election of the Border Ruffian Legislature—a Legislature which now assumes to be the legal law making body of the Territory—*and which Gov Geary says the administration at Washington recognizes to be such*

Gov Geary has with much shrewdness and apparent fairness claimed that the confidence of many of the free State men—and all of them are extremely desirous of confiding in him and are willing to believe that he will do justice to the free State cause, and they make no opposition to his administration, because they would do all they can honorably do, to put an end to the difficulties and troubles which have so long environed Kansas to smooth the way for her more rapid advancement, and her admission into our family of nations

But Gov Geary is yet a doubtful man As we read him, he and his employers at Washington as well as the forth-coming man from Wheatland, would very gladly have the dark cloud of quest on settled by the admission of Kansas as a free State—and all of them are sanguine that the great and free North will crush the democratic party to powder, if any further bloodshed or violence is allowed by the administration in the efforts of the South to reduce Kansas to slavery

But still Gov Geary can do nothing which is really or strongly opposed to the wishes or the calculations of the Southern democracy Nor will the incoming administration dare take many steps contrary to the interests or the demands of the President-making War wicks of the South

Thus we see Gov Geary recognizing in full the legality of the bogus border ruffian Legislature of Kansas—*recommending*, to be sure the repeal of the most obnoxious provisions of the bloody code of slavery, but still conceding that the laws were legally passed and that the men who passed them are the legal law makers of the Territory, and that whatever they may enact relative to future elections, is to be enforced by him as the Executive authority, and to be obeyed by the people.

So according to the last accounts he recommends the Legislature to take steps for the framing of a State Constitution—and ignores the Topeka free State Constitution entirely

So—says a despatch from St Louis,— preparations are making by the members of the so called Territorial Legislature to *carry the election* —and thus continue the power of the pro slavery minority, and take measures to procure a pro slavery majority in a new Convention, when called by the bogus Legislature O this point, we have to say, that we hope a free State man will vote for members of a Constitutional Convention if called by the bogus Legislature whose legal power they refuse to recognize If they attend and recognize to vote, of course a pro slavery Convention is chosen—and what will prevent its formal recognition by the next administration and by the democratic Congress, and Kansas thus brought in as a *Slave State* against the wishes of three fourths of the people—In our judgment the real friends of Kansas will keep the game, if they permit the bogus Legislature to get together a Constitutional Convention of their own men Its acts will be recognized as valid by the national Administration

It is said that a territorial convention of pro slavery men which met at Lecompton recently adjourned after passing resolutions embodying the views of the principal party here—to be called *the National Democratic Party*

These are significant

It is also a significant statement that the bogus legislature (bogus) is determined not to quarrel with Geary if he can be got to do some thing *that may favor the slave party*

I may be mistaken, by the way, that the bogus Legislature has refused to repeal the unconstitutional laws enacted for the purpose of forcing slavery upon the people Gov Geary recommends, but has received no respect, and it is still contrary to the territorial laws of Kansas to speak or write against slavery, and is a criminal offence to have possession of a pamphlet against slavery.

In the Supreme Court, the consideration of the Mason case has been delayed, owing to the absence of Judge Daniels, who has not appeared since the fatal accident to his wife, and who is still delayed at his home by burns then received compelling him to do business all company. The decision will hardly be rendered before the end of the term

The liabilities of Chas B. Fessenden, East India merchant of Boston, whose failure was made known on Monday, are stated at upwards of $500 000 An English Banking House is the largest creditor, being secured for $200,000

REV. MR KALLOCH,—The Boston Journal of Wednesday publishes a report of the investigation in the matter of Rev I S Kalloch, held at Tremont Temple on Tuesday, and also a report of a committee of Baptist clergymen and laymen, who were appointed at a previous meeting to visit Cambridge and inquire into the circumstances upon which the injurious reports were founded. That committee reported in substance, that in their opinion the charges against Mr Kalloch are baseless and without excuse that they emanate from a source not entitled to credit, and want any shadow of consistency as evidence, and they recommend, in conclusion, that no further action be taken in the matter, but that Mr Kalloch apply himself diligently to the work of the ministry

The Journal says that the meeting was composed of many of the most respectable members of the different religious denominations, clergymen and laymen, and the entire unanimity with which they exculpate Mr Kalloch must be great cheering to his feelings, while it will command the respect of the public

It is further stated that Mr K has, since his residence in Boston, received several anonymous letters, threatening him with exposure and loss of character, one of which was dated at Charlestown, and said if he would pay $150 it would save him and nothing less would

It seems to be the wish of the friends of Mr K, that he institute legal proceedings against those with whom the stories originated, and to cause them to test by with the pains and penalties of perjury, stating them in the face

Probably the Boston Journal itself never told a greater whopper than the following with which it winds up some remarks upon the case of Rev Mr Kalloch

We are to *serve* place such an instance on record, but it will serve to point a moral or adorn a tale An investigation will of course, be had and if he comes out clear, *it will give us pleasure to note it*

There is not a reader of the Journal but knows better than this The pretence of serving it is therefore entirely superfluous, and only darkens the color Better be honest, and own it at you are glad of it, and I hope that every word will be proved against Mr Kalloch But exactly your real feeling, and it will be difficult to make anybody think otherwise

A BUCK OF A LIMB We noticed yesterday among the game at Wm Low's market house a specimen of that beautiful variety of the duck, the sheldrake It was shot in an open space in the river near Young's These ducks are very rarely seen inland, except at the time of incubation Specimens of that variety called the ruddy shel Drake are much prized by naturalists for their beauty and rarity The specimen we refer to is of the common variety which frequents our sea shores—but it is also a bird of beauty fully marked plumage

MARINE DISASTER AND LOSS OF LIFE Our correspondent at Eastport writes that the ship Lord Ashburton from a port in France for St John, N B, was cast away on Grand Menan on the 19th inst The officers and crew, twenty three were lost and eight saved Six teen of the bodies had been recovered, and were buried on the 24th

BOSTON COURT—Patk Flanigan was before the Court yesterday charged with the larceny of sundry articles, of the value of $30 the property of A W Mansor of Newport, from the Avenue House in the city, on the 15th inst The defence not being ready, the case was continued to Monday next

It is stated that all the Delaware lands outside of Leavenworth have been sold, with the exception of 1000 acres They brought $430 000 Leavenworth is appraised at $8 000 There remain 200 000 acres of the Delaware reservation to be sold next spring, and 800 000 acres upon which the Delawares are to reside

The ice in Boston harbor, between the city and East Boston, is reported to have been eight inches in thickness on Saturday and Sunday last

THE WRECK OF THE BRIG EMELINE—The New York Tribune gives the following account of the loss of the crew of the brig Emeline Capt Fred ary Farnham, of Penobscot, Me which was wrecked on Jersey beach, and of the attempts made by the wreckers to save them Six persons were seen on board when she struck, and six bodies have since come ashore One of them had the letters 'M S' marked upon the arm Articles marked 'James H Knox' and 'Daniel Knox' have also come ashore

Captain Haggerty thought that if they had launched their boat over the ice rail as soon as the sea struck they might have got safely ashore But they seemed to have only incapable of exertion. Probably they were frost-bitten or had not strength enough left to launch the boat, as it very soon was too late, for, as our informant graphically describes it, the storm came on so heavy enough to blow the oars out of their rowlocks It launched a boat from the beach in such a gale was impossible, and as soon as the mortar arrived, Mr Werdle shot a line over the brig's rigging The poor fellows cleared a feeble cheer, but it was almost dismal enough for a group, and one of them tried to climb up the lee rattlings to catch it He was brought by too much benumbed, and the attempt was abandoned.

Another and another line was thrown over by Mr Werdle, but they were too far gone to help themselves Five lines were fired at various times at sunrise on the brig, but none of them were of any use to the doomed men It was a terrible storm, the wind driving the sea in huge waves over the vessel, and hailing fragments of sharp sand and pebbles into the faces and eyes of the wreckers on shore. Soon the mainsail gave way, and the sea swept the deck. Some of the men took to the rigging, the others went down into the cabin and one crept upon his belly out upon the bowsprit Too feeble to help themselves, they looked for aid to the men on shore, and occasionally raised a feeble shout, but they had done all that was possible for their assistance

If the men on the brig had only been able to haul the hawsers out, the life lines would have been sent off to them, and they might have been saved How painfully the wreckers watched their motions—how imploringly the poor fellows looked towards the shore! Presently those in the cabin crawled on deck again and another man tried to reach the friendly hope. He too failed As the tide rose the wreckers drew back their surf boats, and the men on the brig, thinking they were about to desert them set up a wild wail that was heard high above the crash of the storm Mr Werdle made signs that he intended to stay by them, and the assurance seemed to cheer them a little

In a little while the men on the bowsprit moved down to the deck, and throwing over the top of the galley, or something like it, leaped into the sea after it After buffeting the waves for awhile he gained the raft, but it was held fast by a line which he had not seen, to the vessel I hull Bleech minutes he clung to the float, and the men on shore could see it turn over and over in the boiling waves Occasionally, only the feet of the men were visible but he held bravely on until the line parted The raft then came onward the broken, the man still on it, and the wreckers crowded down as close as they could to the water to save him Their humane intentions were defeated for just as the shipwrecked mariner all but within their grasp, the waves cashed him against a high ledge of rock, which rejected from the shore and the saw him no more

As he day wore on and the storm waxed fiercer, and the cold grew more intense it was evident that no human aid could reach the mariners Three of them were urged to the cabin, and were never seen again A fourth, a young, and slender man, with black hair and beard, lashed himself along the lee rail directly under the chain plates and laid his head over on the outside, as if to protect it from the salt water, The fifth man ascended the rigging, which had now become heavily iced over with ice, and held on for a long time

In this exposed situation, on the beach most of the wreckers were indefatigable in their efforts to rescue the drowning men, several of them were so badly frozen that they were obliged to abandon their posts at once to save their lives, and others came out to serve in their places About 1 o'clock in the afternoon the man in the rigging loosed his hold and fell backwards, dead, on the deck The young man lashed to the rail was also insensible or dead, or he had made no motion for several hours so the wreckers having done all they could, returned to their homes, and with heavy hearts wended their way homeward

HOUSE—*Petitions presented*—Of Hiram Peavey and others, for a charter to navigate Passadumkeag stream with steamboats Of the North Bank, Rockland, for renewal of charter

Mr Stone, of Brewer moved the following order

Ordered That so much of the Governor's address as relates to Intemperance and a Prohibitory Liquor Law, be referred to a Joint Select Committee to consist of one from each County, on the part of the House, with such as the Senate may join, with leave to report by bill or otherwise

Mr Brown said the wisest course was to let the matter alone The law of the last winter was a child of the Democratic party, and it was not fair to take it away from the brat to nurse its mother There would be no selling all over the State of the subject was agitated

Mr Stone, of Brewer, said the gentleman from Milford would probably agree with him in the ultimate disposition of this subject but it was a proper subject for reference and he could not see what object was to be gained by refusing to pass the order

Mr Wyeoman, of Bucksport said it was generally expected in the district he was last full that the Liquor Law would not be the subject of discussion but it came up in the house as introduced, he should not think from any responsible party, but it was carried in the senate and he thought it was the best to lay the order on the table until the sentiment of the order the land on the subject

Mr Dixton, of Vassalboro, said he would cheerfully vote with the majority party in the House, it was to them doubtless a rather perplexing motion, and he was disposed to relieve them as much as lay in the power of their perplexities

Mr Woodman, of Lincoln, did not doubt but that the gentleman from Warren had great consideration for the majority of the House, and he was glad to see it There was a party in the House numbering about 30 members of the gentleman from Warren knew all about their wishes, who would dictate of having their law changed Perhaps it would be well to have the results of the law developed or they may even now be developed Perhaps the people have learned to the conviction that the law is not as good as was anticipated, but the gentleman, who supported that law should not be over anxious or over considerate of the majority so he thought they might be able to act upon the matter, even though they should be so unfortunate as not to have the assistance of the gentleman from Warren He was not aware of there having been any contention on the subject, it was said in view of the enormous attention at present given to the subject, it would be better to look to them rather than at State issues, and that was the whole extent of the matter

Mr Johnson of Augusta, thought it would make all the difference what disposition was made of the subject he said he would have no hesitation in referring to the large committee suggested by the order, but thought it would be safe in their hands

Mr Hutchinson said he should like to read from the Governor's message and he would read the passage to the gentlemen from East Machias (Mr Hayes the passage) as follows

'The subject is one of much and deep anxiety upon the minds of many, and it would seem to be most wise under existing circumstances, not to disturb the present law until the whole subject can be more dispassionately discussed and determined Such action would tend to allay the doubts and expectations of not a few in the State, such a pledge would give in our recent election to political bodies, and in my judgment, should always maintain good faith—and good faith requires that the question should not be disturbed during the present session It is far better to wait patiently until all angry feelings shall have subsided, and when the whole subject can be more appropriately acted on Then let a well matured and carefully prepared bill be submitted directly to the people, for their approval or rejection, at meetings held expressly for that purpose

If there was any pledge here said Mr Hichborn it was not that the present law should be repealed, but that the subject should be discussed dispassionately He believed that intemperance is the cause of four-fifths of the evils that afflict humanity, that it exercised as much control over this subject as the master does over his slave He wanted a calm discussion of the evils, and such intelligent disposition of the entire subject as would satisfy the people of the State, so that we serve the great cause of temperance

Mr Durgin of Calais, said a new set of temperance men had sprung up There was his friend from Machias getting to be a Maine Law man, and there strange still, the Augusta Age is becoming a Maine Law paper. Mr Durgin read an extract from the Age going to show that the waves of intemperance were rolling over the State, and that the Republican party, though admitting the fact, were unwilling to legislate to prevent their rolling

Mr Buxton of Warren, hardly believed the gentleman from Calais strictly honest in his quotation from the Age and his use of it The whole tenor and scope of the article was very different from the very liberal construction of the gentleman of Calais upon it The gentleman from Bucksport had said there were no pledges given, and although seemingly desirous to have something done, manifested a disposition to let the whole subject slide

Mr Woodman—Last year the party to which the gentleman from Warren belonged, passed a law which was to operate so beautifully as to obviate all need for further discussion The law had no operated to suit them—they now wanted discussion—agitation

The motion to lay on the table prevailed—76 to 18, and the House adjourned

Mr Perron—The following account of the practical operation of the new and common mode of administering civil justice in England, is so much in accordance with the sentiments of the law reform resolutions, passed by citizens of this town, six or seven years since and published by most of the papers in this State, that by inserting the following art cle (cut from the New York Tribune) you will oblige MANY SUBSCRIBERS

Hampden, Jan 28, 1857

Cheap Law.

Our numerous readers may like to have some account of the County Courts of England which have had such fatal effect in thinning the ranks of the lawyers And not only so, they have relieved the Supreme Courts to such a degree that there have been instances of their actually adjourning, for lack of something to do! *Punch*, we recollect, once gave a sketch of the Court of Queen's Bench, and the various functions the Judges and Barristers in attendance had to resort to to kill time The object of the institution of the County Courts was to simplify and cheapen the administration of justice in civil cases of no great amount—the original jurisdiction of the Courts on their establishment in 1846 extending but to suits involving sums of £20, which has since been enlarged in 1850 to include those of £50 This double object has been very effectually accomplished

All the technicalities of writs and pleading are dispensed with, and with them the services of a tortuous, wind, our readers will recollect, constitute in England a distinct and subordinate branch of the legal profession The parties are looked in their own behalf, under oath, which relieves them from the yet greater expense of the services of a barrister to argue it for them. The jurisdiction of the Court extends over all "personal actions when the debt, damage or demand does not exceed the sum of £50 whether on balance of account or otherwise By their original constitution they were excluded from trying certain kinds of causes, such as actions involving the title to real estate, or the validity of any bequest or limitation under a will, or for libel slander or breach of promise of marriage. But by recent Parliamentary the County Courts may try any cause, except for criminal conversation, of which any of the Higher Courts have jurisdiction provided both parties agree to the jurisdiction, which is filled in the Court And the Judge may decide any question as to land, or tenure incorporeal hereditaments, which may arise incidentally in any suit, upon written agreements as above But such incidental decisions are notified and not evidence of title in any suit elsewhere A larger amount than £50 may not be divided in order to bring it within the jurisdiction of these County Courts, but suits involving a larger amount may be entered, on the waiver of excess by the plaintiff, or if such amount be reduced with £50 by offset or otherwise

The jurisdiction of the County Courts is not exclusive of the Higher Courts, but the bringing of actions before the latter which come within the scope of the former is discouraged by a higher rate of costs in such cases, with only certain specified exceptions A Higher Court may remit a case commenced before a County Court, on application of either party, if the amount at issue did not originally exceed £50, or if it has been reduced within that sum by offset, tender or otherwise On the other hand, the defendant may, on giving security, remove the case to a Higher Court provided the amount, if on contract, exceeds £20, or £10 if for tort The County Courts have jurisdiction also, of some matters not within the cognizance of the Common Law in England, provided the amount in question does not exceed £50 as, to quote the authoritative work before us, "landlord and tenant, partnership account, or a distributive share of an intestate estate, or a legacy under a will They also furnish summary relief in cases where houses, land &c, are unlawfully withheld from the landlord by the tenant Any one accustomed to watch the English Courts of Law, must have noticed the very small sum, comparatively, for which the great proportion of the litigation of the Higher Courts used to be and Very much of it was for sums less than £40, and all of this is removed to the disposition of a summary trial, and relieve not the burdensome intermediation of attorneys and barristers

The manner of proceeding will show how this is accomplished A person wishing the relief of this Court goes to the Registrar's office and presents his bill or demand and makes oath to it This is entered in a book kept for the purpose and the Registrar issues a summons to the defendant, which is served upon him by the bailiff If the amount demanded exceeds £20, the defendant must give written notice of his intention to defend before the day of return If he neglects this, he is defaulted with costs If for the amount at issue is less than £20, all he has to do is to be present at Court with his witnesses on the day named, and the plaintiff is also bound to be ready with his proof When the case is called the plaintiff and defendant are placed in witness boxes on opposite sides of the Judge who is a barrister of a certain standing and is sworn The plaintiff is first heard, and then the defendant may cross examine him and give his own version of the case Other witnesses are called, if necessary, and thus the real point in dispute soon evolved and the Judge is enabled to come to a speedy decision as to the merits In case he decides in favor of the plaintiff in whole or in part he is authorized to give judgment by instalments should the defendant not be able to pay at once If any of the instalments are not paid, execution may issue for the whole, but this is very rarely done, as plaintiffs usually find it more for their advantage to give an extension of time

We should have mentioned before that all cases where the demand exceeds £5, either party may have a jury trial as a matter of right and in any case the Judge may order one on motion of either side But this is rarely resorted to, partly because of confidence in the Judges, and partly on account of the great expense of time and money it would involve

All pleadings, either before trial or in satisfaction of judgment, must be made in the Registrar's office Thus the Registrar is really the Attorney General so to speak, of all the suitors, greatly to the damage of the attorneys particular, who would otherwise be employed for this purpose As the fees are small, and strictly regulated by law, the expense of these summary processes for the recovery of debts and damages is vastly less than under the old system of attorneys, special pleaders and barristers Of course, attorneys and barristers may be employed, but in point of fact they seldom are Cheap law leads undoubtedly to an increase of litigation, but where the litigation is conducted with such despatch and and for such moderate charges as in the English County Courts, it lessens much of the litigious mischief, and is really Cheap Justice as well as Cheap Law The parties, it has been remarked, usually go out of Court better satisfied than when they went in, which certainly was not always the case under the old system And, undoubtedly, many just debts are thus recovered which would have been abandoned had the expense and trouble attending an old-fashion d law-suit been necessary to collect them

There are regular returns made by the Court to Parliament, by which it appears that between five and six hundred thousand net suits are entered annually, of which about one-half come to trial, and the annual amount adjudged upon is from £600 000, to £800 000 These tribunals are virtually Courts of Conciliation, They are better than references among neighbors—or "leaving it out to men," as it is called In the country—because the umpire is a lawyer of approved learning and character, who is the sworn friend and adviser of both parties Much, of course, depends on the character of the magistrate, but the right man can always be found for the right place, if there be an honest wish to do so The administration of justice precisely where it should be most rightly just, in its dealings with the poorer classes is where it is most collusive in this country. The lawyers and office sharks who prowl about our Courts of petty jurisdiction are precisely the class that should be exterminated by the adoption of a system which would supersede the one and keep the other in hand with a tight rein held by responsible and conscientious superiors—That this can be done is proved by what has been done in England But whether the ravages of our great cities, at least, is not too strong for the law-reformers in a quest on which we wish rather than hope to see decided in the affirmative

Splinters.

In a town in Oneida County, New York, live living a man and his wife who have not spoken to each other for eight years They sleep in one bed, take their meals at the same table, and show not the slightest anger towards each other The only reason for their obstinate silence is that each is too proud to speak first

THE CASE OF MR KALLOCH—A meeting of Baptist clergymen and laymen of the Tremont Temple Society was held yesterday morning to consider the charges which have been made by certain parties against Rev I S Kalloch. After careful deliberation and investigation a meeting expressed the fullest confidence in the innocence of Mr Kalloch, and an earnest hope that the public would suspend their opinion in reference to the statement alluded to till after the publication of a report of a committee to investigate, which will soon be given to the public—*Chronicle, Tuesday*

CURE FOR FROSTED FEET—A writer in the New York Journal of Commerce says, the following is a simple and effectual remedy for corns, frosted feet and one that will afford immediate relief "Heat a brick very hot, and hold the foot over it as closely as can be held without burning Cut an onion in two, and dipping it repeatedly in salt, rub it over the foot. The juice of a onion will bite or sting the foot, and effect a cure in a very short time If this is done twice or three times, it is almost certain to cure your feet entirely

The Captain General has been induced to take this step at the instance of the several Spanish Consuls in Mexico who represent the public and authorities to be extremely incensed against the Spaniards. Several atrocious robberies and murders have been committed in different parts of Mexico.

The diplomatic corps of Mexico including our own Minister Mr Forsyth has protested against the foul act. Although President Comonfort ordered an investigation of the facts connected with the affair no one believes that the offenders will be brought to justice, for the simple reason that the murders were committed by the very men who uphold Comonfort in power.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837)

No. 75 State Street, opposite Kilby St., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American & Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have a vantage for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove this fact. MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate.—The unusual practice of the subscriber during recent years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and a full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay, are here obviated.

Testimonials.

"During the time I was at the office of Commissioner (Hon. Jos. L. Mason) I had occasion to employ R. H. EDDY, Esq., of Boston, in business before the Patent Office, and he solicited and prosecuted claims with much success. Many persons acting in the capacity of agents, who had as much business before the Patent Office, and who were better rewarded, failed with more zeal, fidelity and success. I regard Mr. Eddy as one of the best informed and most accomplished Patent Solicitors in the United States, and have no hesitation in assuring inventors that they can safely employ a person more competent and trustworthy and more capable of securing their rights, with a fair prospect of success, than can be secured by the services of many others who are less informed in the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

From the present Commissioner.

"August 17, 1855.—During the time I was in charge of the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, has been extensively engaged in the transaction of business in the Office, as Solicitor. He has brought to my notice, while the laws and the rules of practice of the Office were under my charge, instances in which I regard him as one of the ablest, most skilful and successful practitioners with whom I have had official intercourse."

CHARLES MASON,
Late Commissioner of Patents.

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leathers often wet and dried, become hard, stiff, and cracks; but when this water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonized with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in construction and workmanship. A perfect Sewing Machine kept employed adores a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a light and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than those sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other man can compare with them in quantity of work.

New machines, of the latest improved style will be exchanged on liberal terms for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis.

ANTAGONISTIC To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons (1827) Licentiate of the Hall (1833), and 20 years Medical Referee, &c.)

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Vivacity, Impotency, and all diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned Dr. CULVERWELL, in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means recorded, medical, surgical or otherwise, to arrest and cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked, were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by *one* person would, through recommendation, result in an eventual sale to many.

Dr. Culverwell's admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended by physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded *by mail*, free of postage, to any part of the country. Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 168 Grand-St., New York, Sole Agents for the United States and Canada.

THE GREATEST MEDICAL DISCOVERY

Of the Age.

Dr. KENNEDY, of Roxbury, has discovered in one of our *common pasture weeds*, a remedy that cures

EVERY KIND OF HUMOR;

From the worst Scrofula down to a common Pimple.

He has tried it in over 1200 cases, and never failed except in two cases, both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within a twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst case of the tetter and itch.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure scurvy and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle; and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first, that it grows in, our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it all cures all kinds of humor.

In order to give some idea of the sudden rise and great popularity of this discovery, I will state that during April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never expected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few which have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pains in the Side, Disease of the Spine, and particularly in Diseases of the Kidneys &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and enough of it.

Directions for Use.—Adults one tablespoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful. As the directions are so applicable to all constitutions, take sufficient to operate on the bowels twice a day.

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine establishment of H. H. HAY, 15 & 17, *Market square, Portland, Maine* to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.

PRICE $1.00.

PROFESSOR WOOD'S HAIR RESTORATIVE.

It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—leave scaldhead—in short, no possible case will it fail of curing. A COOL, healthy, nervous or periodical Headache, and if used twice a week by the young regularly, it will prevent the color, and keep the hair from falling to any imaginable age. Read and judge.

HILLSBORO, Worcester Co., Mass., Nov. 1855.

PROF. O.—Sir:—Dear Sir:—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful hair Restorative. As far back as 1852, my hair commenced falling off until the top of my scalp became bald and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for restoration. Being your seventh series, I was induced to give your article a trial, and to my utter astonishment, I found, after a few applications, that my hair became firmly set, and assumed a glossy and healthy appearance; and by the time I had used a quart bottle, my bald spot was covered over with a young and vigorous growth of hair, which is now from one to two inches and a half in length, and growing fast.

Yours truly,

HENRY GOODRICH.

CHARLESTON, Mass., Aug. 9, 1855.

OSWEGO:—Nothing but a duty and sympathy that I feel to confer benefit on others who are afflicted as I have been would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in a patchy condition. I have now used two bottles, about two months, and my hair is entirely changed to its original color, brown, and the new hair is over three inches in length, and in spots where it was bald I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as formerly.

Respectfully yours, &c.

REV. B. A. STODDARD.

From Mrs. Ingalls, a well known merchant in Boston.

HANOVER, Oct. 15, 1855.

GENTS:—At your request, and being so highly pleased with the effects of the Restorative, I am free to state that my hair has become quite thick, and entirely white. I have for the last five years been in the habit of using dye, but hearing of the extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness, and is of its former color, which is light brown.

Yours respectfully,

MRS. INGALLS.

The following is from the Pastor of the Orthodox Church, Brookfield:—

BROOKFIELD, Mass., Jan. 19, 1855.

PROF. WOOD—Dear Sir:—Having made trial of your Hair Restorative, it gives me pleasure to say, that its effects have been excellent in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled from my childhood; and has also restored the hair, which was becoming gray, to its original color. I have used no other since with anything like the same pleasure and profit.

Yours truly,

J. K. BRAGG.

From the Jersey City Telegraph.

WHAT IS IT FOR—this Wood's Hair Restorative? is a question asked daily by hundreds. We answer without hesitation, or fear of contradiction, that it is the only article known which will do all the promises for the human hair. *It will restore its natural color. It is not a hair dye, but a healthy and efficacious Restorative.*

AYER'S Cathartic Pills

(SUGAR COATED.)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK.

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth blowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Seamer Clarion.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1855.

FRIEND AYER: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the *liver* is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *biliousness* in which they do not readily yield to them.

Fraternally yours, ALONZO DALE, M. D.,
Physician of the Marine Hospital.

Dysentery, Colic, and Worms.

FORT OGLETHORPE, HARRISON, LYNN. CO., GEO., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and ailing away for months. Went off to the doctors at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had fitted and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctor's bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. N. V. Hines, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in ministry. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, N. V. HINES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Prominent Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the parson of all that is great in medicine. Today I have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long afflicted by a fair skin with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hooker, of the Methodist Episc. Church.

PERRY HOLLOW, SARATOGA, CO., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which settled in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your recent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

BENJ. HOOKER.

BERTS CORNERS, DUTCHESS CO., N. Y., Dec. 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SIDDELL.

For Dropsy, Plethora, or Kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its indiscriminate use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION.

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. The great fact every town, and almost every hamlet of the land, speaks for itself. No ordinary cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its efficacy; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral arrests more lives by the consumptive it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect the aid no human skill can master the incurable disease that, fastened on the vitals, sets your life away. All know the dreadful fatality of lung diseases, and all they hope to be the virtues of this remedy, we need not do more than to assure them it is still made of the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and this alone of those who return it the best article which our skill can furnish for their cure.
